

Help us to support Breast Cancer Awareness 2021.

Due to the successful launch of last years pink Hitch Climber Eccentric pulley, we are back again for 2021.

5% of our sales are donated to the charity Against Breast Cancer, with every purchase helping us to raise money for such an important cause.

This limited edition pulley will be produced to order. To help us schedule production in time for October delivery, orders are required by **Friday 10th September**.

Everyone's favourite Pulley.

The Triple Attachment Pulley forms an integral part of the renowned Hitch Climber System and is a firm favourite of working at height professionals the world over.

This timeless classic continues to instill confidence and reliability within tree climbing and work positioning in conjunction with a friction hitch.

The hot forged swing-cheek pulley with an inbuilt three-hole rigging plate ensures creative configurations whilst allowing direct connection to textile components to save on weight and complication.

TECH SPECS

Product Code	PUL100PK
Weight	133g
MBS	30kN
WLL	6kN
Sheave Diameter	42mm
Sheave Tread Diameter	28mm
